

PAI Secure – PCI Education and Compliance Program

PAI Secure is a unique indemnification program that provides financial coverage protection to businesses in the event of a credit or debit card breach. The complete PCI-DSS compliance management program includes auto-Self Assessment Questionnaires (SAQs), scanning options, education, and security breach indemnification coverage.

Cash Advances at POS

Merchants can offer customers the convenience of getting cash advances at the POS through the use of a POS terminal. Cardholders simply select the amount of cash they desire when prompted and the merchant provides the cash advance after the transaction is approved.

PAI Reports for Online Bankcard Reporting

The PAI Reports system is an industry-advanced, secure reporting application that allows businesses to access a variety of POS reports via the Internet. Users can access, print, and download their specific business information from anywhere – and at any time.

PAI Retail POS Programs –

Just one more way that Payment Alliance International continues to provide Payment Innovations for a Changing WorldSM.

Innovative Credit, Debit, Prepaid Cards, Bill Pay, and EBT Solutions

Merchants should never have to turn away a customer because they can't accept the way they want to pay. Through a variety of POS programs offered through Payment Alliance International, credit and debit card payments are made fast, easy, and are reliable. And with prepaid cards, consumers can pay a variety of utility and necessity bills quickly at participating retail locations. Government-issued Electronic Benefits Transfer (EBT) cards can also be accepted at the POS – and without the hassle of handling paper-based checks or food stamps.

Check Verification, Guarantee, Conversion, and Full-Service ACH

Businesses have a variety of options to choose from for their check acceptance needs. Complete check processing services are available including guarantee, verification, check conversion, Remote Deposit Capture (RDC), Check 21, Payroll Check Guarantee, and Retail Payday.

Retail, Restaurant, Lodging and Petroleum Applications

Industry-specific solutions are available on POS terminals and PC-based applications to serve the unique needs of retailers, restaurants, lodging and petroleum environments. Unique features include payment applications with tips for certain retail/restaurant environments, fleet card acceptance for petroleum locations, MO/TO transactions, cash advance functionality, as well as lodging specific features that address guest check-in/out requirements.

Numerous fully-certified PC-based, terminal, PIN Pad, and mobile phone equipment options

A myriad of POS applications are available for merchants to choose from including simple terminal-only applications and integrated terminal/printer/PIN Pad/check imager solutions, to complicated PC-based POS/back-office integrated solutions. Merchants can also accept secure credit/signature debit/check payments through various mobile phone models.

Industry-leading multi-application PAI-Trex Terminal

Our signature terminal holds up to 15 POS applications including cash advance, debit/credit/EBT/fleet, age ID verification, checks, gift cards, prepaid mall, up to 99 multi-merchant IDs, Purchasing Card Level II payments, MO/TO transactions, logo on receipt, dual com (dial-up and IP), wireless and contactless transactions. This state-of-the-art industry leading POS payments terminal is everything a merchant wants or needs!

Integrated Retail POS Systems for Small Businesses

No retail environment is the same and some businesses require advanced POS solutions in order to accommodate multiple payment types, integration into their back-office systems, and customized reporting. We offer retailers the ability to choose from a variety of fully-certified PC-based POS applications that serve the needs of all types of businesses and industries.

Full-service eCommerce Solutions with Shopping Cart, Inventory Management, and Payments

Payment Alliance provides merchants with gateway processing services and has numerous applications that are certified for conducting Internet payments. Most applications have integrated shopping carts and inventory management capabilities, as well as real-time payment acceptance functionality.

Recurring Payment Solutions

Some businesses allow customers to spread payments out over a period of time versus paying for goods and services in a single payment. We have developed solutions to help businesses setup ongoing, recurring payments – helping to eliminate the nuisance of manual billing and lengthy accounts receivable procedures.
