

PAI Wireless

If your ATM doesn't use wireless connectivity for transactions, your customers aren't getting the best ATM experience they deserve. The PAI Wireless solution can help your business run more efficiently and faster than ever before.

Lowest Rates Available and No Up-Front Costs

Saves on average \$15.00/month if paying for a phone line

Plug and Play Installation

Saves time spent running phone lines and dealing with the phone company

Secure VPN Connections

Helps reduce risk of the massive expenses associated with data breaches and ATM hacking

Faster Transaction Speeds Helps Reduce Lines at the ATM

Enhanced customer experience leads to more repeat customers and increased profits

Nationwide Coverage

Largest coverage area possible with over 99.99% network uptime

Communications are Dedicated to the ATM

No more lost transactions due to a shared phone line

PAI Wireless offers a low cost, easy to install, lightning-fast connection that helps protect your transaction data.
