Payment Alliance International Chosen as Finalist for Business of the Year

LOUISVILLE, Ky. – Dec. 8, 2010 – Payment Alliance International (PAI), a leader in electronic payment processing solutions, announced today they are one of three finalists chosen for Business First of Louisville’s “Business of the Year” Award, specifically in the Large Company of the Year category. PAI was selected because of its accelerated company growth and business contribution to Greater Louisville.

As part of the Business of the Year Awards, companies and individuals who have done outstanding work in the last 18 months are honored. “At Payment Alliance we get it – we’re here to help businesses make it easy for their customers to pay for the things they want to buy,” said John J. Leehy, III, President & CEO of PAI. “PAI aligns itself with some of the strongest companies around the globe, offers a multitude of innovative products and services, and has the most dedicated and experienced employees within the payments industry. Day after day, our employees prove their metal by coming through for the customers we serve. These are just a few of the reasons why we are the unequivocal leader in ATM Management services with over 45,000 locations in the U.S.”.

Leehy also expressed gratitude toward Louisville and said “Any success that our team has achieved is a direct reflection of this city’s welcoming entrepreneurial spirit. I couldn’t imagine a finer place to call home or a more fertile environment for pursuing your dreams. It is such a great honor to be standing alongside great companies like Texas Roadhouse and Kindred Healthcare. Both are proven performers whose incredible track records speak for themselves”.

PAI is one of three Louisville-based companies that are finalists in the Large Business of the Year category. The winner will be announced at Business First of Louisville’s “Business of the Year” gala dinner and awards program on Thursday evening, Dec. 9 at the Kentucky International Convention Center located in downtown Louisville.

About PAI
